

Get no-hassle professional carpet cleaning results.

HOST® dry cleaning your carpets keeps carpets looking like new because no sticky detergent residue is left behind to attract soil.

*Carpets stay cleaner, longer!*

*Perfect for cleaning high-traffic areas.*

The HOST® dry carpet cleaning system is the **easiest and most effective way** to keep your carpets looking beautiful.

**Beware** of ridiculously low priced carpet cleaning coupon offers (**better known as "BAIT & SWITCH" tactics**). Some carpet cleaners try to lure you in with unneeded products, only to surprise you with a much higher bill when the job is finished.

*We also clean Grouted floors!*

*Grout will brighten up within 15-20 minutes.  
Caution: Not used on Slate or Natural Stone floors.*

Look what our superior HOST® Dry Carpet Cleaning service does for you:

- *Deep cleans and removes soil and spots*
- *Lifts and fluffs matted carpet pile*
- *Leaves a clean, fresh scent*
- *Leaves rooms ready to use right away*
- *Improves air-quality*

Our HOST® dry carpet cleaning system removes the soil stuck to the fiber and will help restore the carpet to a like-new appearance.

We use:  
**host** The Dry Extraction Carpet Cleaning System

*We use HOST® dry carpet cleaning system to clean carpets and rugs so there is **no drying time required!***

## Allergen Removal

*Research studies have shown that one cleaning with the HOST® system using the HOST® Liberator® and Freestyle® machines reduces:*

- Dust mites by 78%
- Dust mite allergen by 89%
- Mold spores by 97%
- Cat allergen by 85%

Allergen levels remain low for **up to 8 weeks** after cleaning. No moisture is left behind to support growth of mold, mildew, bacteria and dust mites. Regular cleaning keeps allergen levels low and thus contributes to an effective allergy avoidance program. Tests prove that HOST® dry carpet cleaning your carpets reduces the level of dust mite allergens, pet dander and pollen.

Works in less than 1 hour.

***Safe for your children and pets.***

*HOST® is the first dry carpet cleaner to receive USDA Biobased certification.*

HOST® Dry Carpet Cleaner meets Green Seal's environmental standard for industrial cleaners based on its reduced human and aquatic toxicity and reduced smog production potential.

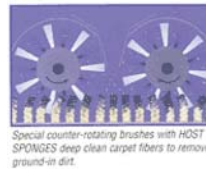

## No messy wet carpets!

- Nothing's easier or cleaner! Carpets don't resoil - no residue!
- Deep cleans and deodorizes without shampoo or steam.
- HOST® dry carpet cleaning will not discolor fine rugs or void warranties.
- Approved by fiber manufacturers including Dupont, Allied, and Monsanto.

HOST® dry carpet cleaning is made up of thousands of small porous particles that look and act much like tiny sponges that absorb dirt, spots, and spills. The particles are composed of thousands of synthetic polymer particles that contain a water-based cleaning solution and mild lemon fragrance. Fragrance free is also available.

HOST® dry carpet cleaning safely and gently removes soil from fibers without damaging the fiber or its stain-resistant finish. More dry soil is removed because the fiber is not matted or crushed. That's why it's approved by major fiber manufacturers. Caring for your carpets using the HOST® dry cleaning method will not void your carpet warranties! HOST® dry carpet cleaning is designed to remove the oily and water-based soils that your vacuum simply can't. How? By absorbing the material into a particle that's easily vacuumed away.

## How to Keep Your Carpets Cleaner Longer

### **Treat Spots & Spills Immediately !**

*The trick to preventing spots and spills from turning into permanent stains is to treat them immediately. Unlike some other cleaners, HOST® can even be used on wet spills.*

### **Clean Traffic Areas Routinely !**

*Routine cleaning of high traffic areas such as entranceways, hallways and in front of favorite furniture will also help improve the appearance of your carpet.*

### **Deep clean wall to wall every 6 - 8 months (more often if you have pets or small children)**

*The HOST® machine's unique counter-rotating brushes lift matted carpet pile and insure that HOST® Dry Carpet Cleaner gets deep down into your carpet to remove soil, spots, allergens and odors. Carpet is left clean, dry and ready for immediate use.*
